New York City.

Good Morning Mr. Noe:

With the kind permission of Miss Rebecca B. Rankin, I offer our services as printers to the members of The Special Libraries Association.

For some time we have been assisting Miss Rankin with her printing problems and have also produced satisfactory work for several other members.

We have a very modern plant of medium size equipped to render the type of printing service that you no doubt want. We are in a position to assist in the creation of ideas, art planning, copy writing and other services of the graphic arts.

I would appreciate an opportunity of assisting you with your printing problems, a phone call will place me at your service when that next job occurs.

Respectfully yours,

M. P. BASSO & CO. INC.
